TO CONSUMERS OF

**PICKLES.**

BELIEVING that the Public have become tired of purchasing Pickles in Packages, which, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we call labelling "WM. UNDERWOOD & CO'S EXTRA PICKLES," and also filling into full sized jars, which are legibly stamped in the glass, with their exact contents, in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manufacture of Cooking Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that in the most brands of English Pickles found in this country.

**550,000 Acres Selected**

**Pine and Farming Land**

IN MICHIGAN.

**THE SAINT MARY'S FALLS SHIP CANAL COMPANY**

OFFER for sale these Lands, which are principally situated in the lower Peninsula of Michigan, on and in the vicinity of the large streams and rivers, easy of access, and selected under more favorable circumstances than

**Any other Western Lands,**

Were chosen with particular reference to their location on the streams and the quantity and quality of the pine timber. On this account,

**For Lumbering Purposes,**

They are very desirable and valuable. The streams are large and capable of floating logs at all seasons of the year, with harbors at their mouths, on the Lake. At many of these points settlements and extensive lumber operations are formed and conducted with uniform success, proving already the most profitable lumber operations in the Union, and having access, by means of Lake navigation, to

CHICAGO, DETROIT,

and the other great **Lumber Markets** of the country.

*Tracts of from 40 to 40,000 acres*

will be found at convenient points, affording opportunities for either a small or the most extensive lumbering operations. A large portion of these Lands are among

*The Best Farming Lands of the West,*

and as they contain enough of the FINE PINE TIMBER to more than pay for the land, fencing, moderate buildings, and other improvements, offer very superior inducements to farmers seeking a western home.

*The Climate is Mild and Equable,*

and soil and climate both suited to all the grains, fruits, and products raised in the most favored portions of the West.

*Communities of 10, 15 or 20 Persons,*

with their families, will find location just suited to the formation of a settlement, with good water power, and convenient access to neighboring settlements.

TERMS:

One fifth will be required at the date of sale, and the balance in one, two, three and four years, with interest at six per cent. per annum.

The Company have full and complete descriptions of each tract of their lands, from actual explorations by surveyors, different parties, with accurate maps of each township, according to government surveys. These may be seen at the

**Singer's Sewing Machines.**

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The entire *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a fine and delicate construction, are recommended by other manufacturers. Such machines are made to order, to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style will be exchanged on liberal terms, for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a pamphlet of I. M. SINGER & Co's Gazette, a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

## Congressional.

WASHINGTON, Jan. 6.

SENATE.—Mr. Cass called the Senate to order, and announced that the first in sidence was the election of a President pro tem.

Mr. Hale—"What is the occasion?"

Mr. Cass—"Because we have'nt any."—(laughter.)

On motion of Mr. Hunter, the Senate proceeded to the election, when Mr. Mason was chosen, receiving 30 votes—Foote 14, Weller 1, ——2.

Mr. Fish introduced a bill making an appropriation for the removal of Diamond Rock, &c. in New York Harbor. Ad.

HOUSE.—Mr. Boyce gave notice of a bill to amend the intended offering to the Post Office.—He proposed that from and after January 1857, all goods, wares, merchandise, and other products under the existing tariff to pay a duty of 20 per cent, shall continue to be admitted at that rate, and tea and, coffee included in the same schedule.

Mr. Greenwood, introduced a bill the more effectually to prevent the introduction of spirituous liquors and wines into the Indian country. Referred to the Committee on the Judiciary.

The consideration of the President's Message was resumed.

Mr. Stephens said—We are in the midst of a new epoch in the Republic, and it will be so considered hereafter. The late election brought into array parties with what he considered well defined and clearly ascertained principles, which were manfully and openly met on both sides. It was a fair issue, but the centers were past.

The result of the election had quieted the public mind.

Mr. S. claimed that it had been decided that Congress shall impose no restrictions on the Territories, *so far as slavery is concerned*.—This issue was boldly made on one side and as manfully and zealously made on the other.

Mr. Stephens took for granted that the principles of the Kansas Nebraska act were indorsed by the verdict of the people in the presidential elections. It however, for said no such idea as squatter sovereignty. There was no recognized independent sovereignty in the people of the Territories.

Mr. Davis of Md said that gentlemen had so essentially differed on public questions, that he could find authority in the debates for any opinion whatever, or testimony for any fact.—As to who opened this debate there was hardly a question. It was opened by the President in his annual message.

He would not follow that document in either its reasonings or statements of facts. He quoted the remark from the message:—"As Senators represented the States of the Union, and Members represent their several constituents, the President represents the aggregate population of the United States." Napoleon Bonaparte said to the Deputies of his chamber, 'you represent nought, but your several communities—I represent the great nation.' In North America we have the President presiding—this attempting to belittle the Senate and House of Representatives. It was much to be regretted that the President, smarting under the indignation of his Northern friends, who rolled up their condemnation against his policy should have to fer forgotten the propriety of his station as to introduce a Bare ness of language heretofore unknown in any Executive document.

Notwithstanding the President's ideas as to what the people decided in this Presidential election, Mr. Davis said the late contest shows the majority of the people have condemned the Democratic party—that a majority are against the Kansas act—against Franklin Pierce's administration—and that the minority only desire to see Mr. Buchanan President. Further, that Mr. Buchanan has split a straw for his majority in the House, on which he has his power to carry out any principle which his Democratic friends suppose settled in the recent contest. In reply to Mr. Stephens, Mr. Davis said the increase of Democratic members to the next Congress, was the consequence of divisions in other parties. A death wound had been inflicted on the great national Democratic party, which now wriggles in final dissolution. Mr. Davis next spoke of the different interpretations given to the Nebraska Kansas act. The Northern and Southern wings of the Democratic party see as wide a sport as the Republicans and Democrats on some questions of Constitutional power. The Democratic party were conglomerate and great would be the convention on the dissolution of the spoils. The Republicans have been taught a lesson in the late contest. The people have decided against the nomination of sectional Presidents.

Mr. Davis continued his remarks at length, in laudation of the American party, and was replied to by Mr. Cadwallader, of Pa.

## The New York Legislature.

ALBANY, Jan. 6.

The Legislature organized by the election of Lemuel C. Littlejohn, Republican, as Speaker of the House. Gov. King's Message says that the financial condition of the State is favorable. Total receipts for the year were nearly $10,000,000; expenditures nearly $15,000,000. The canal debt at the close of the fiscal year, Sept. 30, was upward of $22,000,000, and he recommends $2,750,000. Whole length of Canals and public works 892 miles. Entire cost when completed about $60,000,000. The State Banking system is in a sound and healthy condition. The Department of Public Instruction is represented to be generally in a flourishing state, with an annually increasing revenue. The Governor's allusion to the Liquor Law is brief. He says, however opinions may differ as to the expediency of prohibiting the sale of intoxicating liquors as a beverage, none can doubt that it is both a right and an absolute duty so to regulate their sale as to diminish, as far as practicable, the risk of their abuse, and that to repeal the law will permit and opinion will sustain to check it, should be left untried. With regard to the Presidential Election, the Message assumes that its result is a deliberate and irreversible decree that so far as the State of New York has a voice, there shall henceforth be no extension of slavery in the Territories of the United States. He next alludes to the President's imputation upon the Republican party, which he declares wholly groundless.—In this connection he alludes to the outrages in Kansas, and recommends that a sum of money be appropriated to the relief of the destitute emigrants.

## The Massachusetts Legislature.

BOSTON, Jan. 6.

The Massachusetts Legislature meets tomorrow. The Republican Senators in Caucus this evening, nominated George W. Upham of Salem, for President, and Peter N. Cox of Lynn, Clerk.

These cover in the aggregate, exclusive of lands reserved for schools, &c., 1,326,160 acres.

## Burning of the Vermont State House.

MONTPELIER, 6th—8 P. M.

The State Capitol building is now on fire, and must inevitably be consumed. The capacious dome is enveloped in flames, and the fire is rapidly spreading. Its origin is supposed to have been in the unsoldering or burning out of some of the heat conductors leading from the furnace to the Representatives' Hall.

**Thrice-Weekly Kennebec Journal for 1857.**

DURING the approaching session of the Legislature, the undersigned will continue the publication of the *Thrice-weekly Journal*, being the XIIIth Volume of the same.

As well known the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings, we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.

As the renewal of all the Bank Charters in the State will come before the Legislature this Winter, the debates and proceedings will be of peculiar interest to all who are interested in Bank property.

The numerous lines of railroad which now traverse the State in all directions, will enable a very large proportion of our subscribers to receive their papers a few hours after their publication. This fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.

The Thrice-Weekly Journal will be published on *Monday, Wednesday and Friday* mornings.—The price will be

Having contracted with the most extensive Book Publishing House in the United States, and wishing to dispose of a large stock of Books now on hand, have adopted the following liberal plan:—

All Books that usually sell at from $1,00 to $1,25 and even $1,50, who shall sell for $1,00 each, and every purchaser of Books will have the privilege of buying one of the following articles, to be by our agent selected, at the following prices:

| | | | |
|---|---|---|---|

| 100 | Silk Dresses, or | | |

Strange as it may seem, it is nevertheless true, that we sell good Jacks and Silver Watches, and Silk Dresses, for only three dollars each; and Gold Lockets, Gold Pencils, Pins, Rings, etc., for twenty-five cents each.

The Subscribers, in this way, have their books at the cost of manufacture, and the profit we receive on them, enables us to sell every customer for books, a far more article for a more nominal price, which is about equal to giving it away.

### LINCOLN'S
### WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

*Keep your feet dry and you will seldom need a Physician.*

IT is not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is prevented. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experiment upon different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation, which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but likewise softens the leather, and it will

**Positively wear twice as long.**

I have now used it for three years and a large part of that time have worked in a wet factory, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

### AYER'S
### CHERRY PECTORAL,

FOR THE RAPID CURE OF

**Colds, Coughs, and Hoarseness.**

Dedham, Mass., 20th Dec. 1855.

Dr. J. C. AYER: I consider it my duty to make the best remedy I have ever found for Coughs. Hoarseness, Bronchitis, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. I administered it to my family for the last ten years has proved it to possess superior virtues for the treatment of those complaints. I AM SERIOUSLY, M.D.

ALONZO MONTAGUE, Esq., of Utica, N. Y., writes: "I have used your Cherry Pectoral in my family ever since it was first introduced, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bot le than do without it, if I could not obtain more at any other price."

HIRAM CONKLIN, M. D.

ANGUS LEE, Esq., of Montreal, C. E., writes, 31 Jan., 1856: "I have, during the Influenza, in which the undersigned, in doors six weeks, took many medicines of various kinds, finally settled upon your Pectoral, by the advice of our druggist. The first dose relieved the soreness in my throat and lungs; a few doses cured me, and I am fully convinced that your medicine saved my life. I can, therefore, recommend it to the public as the best we can buy, and we esteem you, Doctor, and your remedy, as the poor man's friend."

**Asthma or Phthisic and Bronchitis.**

SIR: Your Cherry Pectoral is performing marvellous cures in this section. It has completely cured me of a distressing symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last fifteen years. HENRY PARKS, Marshall.

A. A. BAKER, M. D., Archer, Monroe Co., Iowa, writes, Sept. 15, 1855: "I have been using your Cherry Pectoral in my practice, and find it to be a valuable remedy for the diseases of the throat and lungs. I have found no medicine equal to it for giving relief in the severe paroxysms of Bronchitis, and for controlling the violent paroxysms of Whooping Cough, and other distressing affections of the throat and lungs."

**Consumption.**

Prudence Ann Hopkins, of Somerset, Mass., was cured of a most distressing case of Consumption, which had baffled the skill of the most eminent physicians in this vicinity, after the patient had been given over by them as incurable. Her case was singularly distressing, and the cure is regarded as remarkable by all who were acquainted with the circumstances. She was prostrated upon a bed of sickness, from which she arose, at the end of three months, perfectly restored to health, by the use of this remedy. Her case was such as to baffle the skill of the most eminent physicians in this vicinity, and she was given over by them as incurable. Her cure is regarded as remarkable by all who were acquainted with the circumstances.—*Fall River (Mass.) Monitor.*

Extract of a letter from Mr. Thomas Bird, of Cincinnati, dated March 5, 1855:

"I have had a dreadful cough, and a pain in my breast, which was so severe that I could not sleep. I had taken almost everything that was recommended, but got no relief. I was induced to try your Cherry Pectoral. It is impossible to describe the relief it gave me. I slept all night, which was the first time for many weeks. I am now entirely free from pain, and my cough is very much relieved. I am confident that a few more bottles will entirely cure me."

Prepared by DR. J. C. AYER, Lowell, Mass., and sold by all Druggists everywhere.

J. C. AYER, Practical and Analytical Chemist, Lowell, Mass., and sold by all Druggists everywhere.

### American and Foreign Office
—FOR—
Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

**R. H. EDDY,**

No. 76 State Street, oppos te Hilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others,*) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that above is MORE SUCCESSFUL AT THE PATENT OFFICE! than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges or professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive l brary of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar.* Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents,*

"During the time I occupied the office of Commissioner of Patents, R. H. I regard Mr. Eddy as one of the best Patent Solicitors and most skillful Patentees in the United States, and, as I have no interest in assuring inventors that they cannot employ a person in every respect more worthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

(From the present Commissioner.)

WASHINGTON, May 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. ### THE GREATEST
### MEDICAL DISCOVERY
Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds, a remedy that cures

**EVERY KIND OF HUMOR,**

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both under treatment.) He has now in his possession over two hundred certificates of its virtues, all within twenty miles of Boston.

Two bottles are warranted to cure the most scro ulous mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure ringing of the ears and Notches among the hair.

Four to six bottles are warranted to cure running and pimpling ears.

One bottle will cure the most distressing case of the itch.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I profess to have a thousand bottles of this in the vicinity of Boston. I know the effects of it in every case. I find sure as water quenches fire, so sure will this cure tumor. I have sold a bottle of it, but that sold another; after a trial it always speaks for itself. There are two things about this kind, that is dear to me in speaking; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humors.

In order to give some idea of the medicine and its great popularity of the discovery, I will state that in April, 1850, I peddled it, and sold about six bottles per day—in April, 1851, I sold exercise thousand bottles per day—in April, 1852, I sold ten thousand bottles per day—in April, 1853, I sold fifteen thousand bottles per day—in April, 1854, I sold twenty thousand bottles per day—in April, 1855, I sold twenty-five thousand bottles per day—in April, 1856, I sold thirty thousand bottles per day.

Some of the wholesale Druggists who purchased in business twenty and thirty years, say that nothing in the annals of patent medicine was ever like it. There is a run several times of it from all quarters.

In my own practice I always kept it strictly for humors, but since its introduction as a general family medicine, strong and wonderful virtues have been found in the blood, never suspected.

Several cases of epilepsy (falling sickness,) disease which was always considered incurable, have been cured by a few bottles. Or light a mercy it is, it does effected in all cases of that awful malady—there are but few which are seen more of it than I.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the liver, Sick Headache, Dyspepsia, Rheumatism, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, this discovery has done more good than any medicine ever known.

No change of diet is necessary—eat the best you can get, and enough of it.

**It has Worked Miracles!**

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, is not a matter of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even to old head—and in no possible case will it fail of success, as by magic, nervous or periodical Headache is used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any unfashionable age. Read and judge.

PROF. O. WOOD—Worcester Co., Mass., Nov. 1855.

DEAR SIR:—I take pleasure in bearing voluntary testimony to the magic effect of your wonderful Hair Restorative. As far back as 1835, my hair commenced falling off until the top of my head became bald and smooth as glass, and it has continued so for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, not only hair became fixed, but assumed its original appearance; and by the time I had used a quarter of a bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in length, and is growing fast.

Yours truly, HENRY GOODRICH.

CHARLESTON, Mass., Aug. 9, 1855.

GENTS:—Nothing but a sense of duty and sympathy that I feel to communicate to others that are afflicted as I have been, would induce me to give this public acknowledgement of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used three bottles in the course of six months, and my hair is become as fine as silk in texture, of a dark color, brown, and the new hair is over three inches in length. In short, where it was thin, it is much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to fall out as formerly.

Respectfully yours, &c.,

Firm R. A. STODDARD.

GENTS:—As you request, I am being so highly pleased with the effects of the Hair Restorative, I feel free to state that my hair has become quite thick, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. Since I have used it my hair has been restored to its original thickness, and also to its former color, which is light brown.

Yours respectfully,

MRS. INGALLS.

I have used no oil or article with anything like the same pleasant smell or gloss.
